

## The Nova Cells Advantage

- ❖ **Government Approval:** Nova Cells participating clinics and hospitals are all in good standing in terms of meeting regulatory standards set forth for medical clinics by the *Department of Health*, State of Baja, CP, Mexico and [COFEPRIS](#) (the Mexican equivalent of America's FDA.)
- ❖ **Safety:** The various allogenic (donor) cell types used such as umbilical cord blood stem cells, Wharton's Jelly derived stem cells, and cancer-fighting granulocytes in the Nova Cells program are tested and are certifiably free of all disease causing microorganisms including but not limited to hepatitis A, B & C, HIV (cause of AIDS), syphilis, cytomegalovirus, West Nile Virus etc. All medical procedures, testing and stem cell processing are done in Mexico.
- ❖ **Comprehensive Diagnostic & Care Facilities:** Many Mexican specialty clinics and physicians are part of the Nova Cells program. This includes imaging centers that handle doing MRIs, CTs, and X-rays; specialists in neurology, cardiology, respiratory medicine, internal medicine, ER (traumatology), orthopedic medicine, pediatrics, urology, oncology, etc.; hospitals and clinics that are equipped and experienced in doing tissue harvesting and treatments by various means including intravenous (IV) drip, intrathecal infusion ("lumbar puncture"), catheter, and more.
- ❖ **Value:** Nova Cells treatments generally cost less than most others offered by private Baja-based clinics doing stem cell-focused therapies. No brokers, marketers or other middlemen are involved which is one reason its treatments are cheaper. Patients deal directly with the scientists, doctors and others who are part of the Nova Cells program.
